## U.S. MASTERS SWIMMING CLUB

The City of Chardon Park and Recreation Department is now offering a Masters Swimming Program.

### Background:

United States Masters Swimming (USMS) exists to promote fitness and health in adults by offering and supporting Masters Swimming programs. USMS was founded in 1970 and currently has over 30,000 members. It supports and encourages competition, but more than half of its members are fitness swimmers who do not compete. USMS is one of five organizations which comprise "United States Aquatic Sports," which is a member of FINA, the international governing body for aquatic sports. There are over 700 local Masters Swim Clubs throughout the country and more forming every day.

Masters swimming is a group of people that love the sport of swimming. Everyone has a reason for being a masters swimmer; to remain in shape, to create friendships or never lost the urge to compete. Swimming is a lifetime activity with lifetime benefits.

Members can compete in organized meets. Events are run as they would be at the high school or collegiate eve. There are general awards for individuals and teams. There is a national ranking system and national and international meets. Each part of the country is broken up into its own Local Masters Swimming Committee.

Fitness swimmers, triathletes, competitive and noncompetitive swimmers are encouraged to join.
