Sandlot Baseball

This program has two goals. Learn about the game of baseball and improve skills. More importantly, allow young baseball players the opportunity to enjoy the game on their own sandlot field. Adult supervision will include making sure players are safe. However, participants will play on their own and make calls and rule interpretations. Each day will include lessons on the history of the game and famous players that made an impact on the game of baseball. It will also include practice and drills to improve baseball skills. Finally, the participants will get an opportunity to just play. Each participant should bring their own bottle of water too due to COVID concerns. It is highly encouraged that each participant bring their own equipment including baseball glove and helmet. Bats and helmets will be available, if needed.
